

INSTALLATION INSTRUCTIONS

STEP 1

Compress the clip on the wheel and press into the bottom of the post. Bang the wheel on the ground to insert the wheel into the post. Repeat these steps 3 more times for the remaining 3 posts

STEP 2

Slide the bumpers on the post

STEP 3

Put the 2 pieces of plastic clips together and place the clips in the slot above the bumper on all four posts

STEP 4

Slide the bottom shelf over the 4 posts. Note the two posts with the wheels with the brakes should be to the right side when facing the cart

STEP 5

Place 2 sets of plastic clips above the shelf on the left side when facing the cart, Slide on the side shelf frame, Press the side shelf onto the side shelf frame

STEP 6

Place 4 sets of plastic clips on the two left posts and slide on the side board, Repeat these steps for the two right posts. Pls make sure they are on the same level

TIP
Firstly, place 2 sets of plastic clips directly on Side shelf frame, then slide the side board, when the board slide to the bottom, we can mark on the post to confirm the position of top 2 plastic clips

STEP 7

Press in the back rack for the bottom shelf

STEP 8

Place 2 sets of plastic clips above the side board, Slide on the handle

STEP 9

Place 4 sets of plastic clips above the side board and slide on the top shelf

TIP
Tapped lightly with a rubber hammer, make each parts connect tightly. It's better to put a towel or soft things on these parts to protect them

STEP 10

Press in the back rack for the top shelf, Press in the right and left side racks for the top shelf
